Benefits for Sales Partners:

Pan-European OBUs with >18 toll services for vehicle fleets >3.5t

Covering most flexible & comprehensive data processing.

Operational excellence: IT & Service DNA

Best in class toll charging performance & accuracy. Over 20 years of reliable expertise in IT, tolling & mobility services.

Choose one or all freely selectable services without extra charge

Easy booking of additional services “over the air.”

Professional logistic management

Including storage, refurbishment and EU-wide OBU shipment at no extra cost.

Standardized Sales Partner API

For easy partner integration and automated data processing.

Transparent fleet management options

Keep track thanks to intelligent tracking solutions.

Easy reuse of OBUs

Immediate transfer from one customer to another with unique time-savings.

Service & Complaint Management

Customer-centric and reliable deep dive analysis and backend support.

Simple settlement

Post-payment billing for all toll domains including Hungary and flexible booking of discount schemes, e.g. in France.

Benefits for the Users:

Over-the-air

Technical updates and extensions to the (toll) service range quickly and immediately uploaded to the OBU.

On the safe side

Use of our OBU exchange service and get your OBU permanently installed to avoid possible power failures.

No comprehension problems

Convenient and intuitive OBU operation in 22 languages.

Easy installation

Connect the device and some minutes later the OBU is ready to use.

Best in class performance

No system failures, reliable OBU device lead to few to no penalties.

Mobile on the road

All vehicle information can be viewed and controlled via the Toll4Europe App.

Clarity

Daily and historical billing transactions at a glance.

Clear view

All toll information clearly displayed with just one device on the windscreen – completely independent of mobile devices.

Support 24/7

All important information such as the OBU user manual, OBU installation videos and FAQs are available in the Toll4Europe App at any time.

- **Quality.**
- **Innovation.**
- **Reliability.**

Toll4Europe provides reliable and intuitive toll solutions, backed by the expertise of its shareholders: DKV Mobility, euroShell Cards, Daimler Truck, and T-Systems Road User Services.

In the last **years of operation**, we expedited seamless toll payments across numerous European countries. Our toll box simplifies the payment process, ensuring a hassle-free journey without complex payment systems or border delays. We focus on transparency, efficiency, and high quality – for stress-free mobility across Europe.

We listen.
We innovate.
